

**SPECIALISATION:**

Independent third-party Service Provider for Turbomachinery & Rotating Equipment.

Seoffshore Engineering has developed Strategic Alliances with leading global names for the provision of gas turbines, steam turbines & compressors services. Thus, we are able to integrate these services from our partners to form a "one stop service centre" including monitoring the performance envelope.

**EXPERTISE:**

- Engineered Services
- Gas Turbine Repairs and Maintenance
- Steam Turbine Repairs and Maintenance
- Compressor Repairs and Maintenance
- Electrical Motors Repairs and Maintenance

Engineered Services is the logical addition to our existing services (Repairs, Maintenance Contracts, Reliability and Engineering). This allows us to take the next step beyond maintenance and repairs of rotating equipment.

We have successfully integrated a whole range of Turbomachinery & Rotating Equipment. This new development has propelled us to become an invaluable gamechanger in the industry. We have merged with leading suppliers of Gas Turbines: Alba Power (Rolls Royce industrial aeroderivative gas turbines), and GE Fleet to be a specialist under one brand.

**OUR SERVICES**

**HEAVY GAS TURBINE SERVICES**

We provides one-stop world-class solutions integrating 5 core product offerings:

- Repairs
- Castings
- Engineering
- Machinery
- Coatings

- Accelerated turnaround times
- Flexibility
- Reduction of operating expenses
- Extension of Gas Turbine engines lifespan

**GE AERO-DERIVATIVE SERVICES**

Fleet Specialist is a global technology company driven by innovation and advanced technology. They deliver high value engine components all from a single source. The Company's capabilities allow it to produce and repair even the most sophisticated gas turbine engine components with utmost precision

**FLEET SPECIALIST**  
international service provider

**ALBA POWER**  
international service provider

As a global award-winning Company, Alba Power has achieved industry excellence through their excellent technical abilities and impeccable track record in their Gas Turbine services.

**ROLLS ROYCE GAS TURBINE SERVICES**

Specialisation: Gas Turbines services for Rolls Royce (Avon and Olympus, RB211), Pratt & Whitney and Kongsberg KG2

- Gas Turbine Services
- Power Turbine Services
- Marine Turbine Services
- Turbine Spare Parts
- Controls
- Package Supply & Renovation
- Gas Turbine Engineering & Consultancy

- Enhancement of Gas Turbine maintenance life
